Install and uninstall

1. [Download](#) CoordTrans for Windows.
2. Unzip the downloaded file.
3. Run **setup.exe** and go through the installation steps. *If you get an error while running the installation program you need to install "Microsoft Windows Installer" first (see below)*

To run the installation program you must have "Microsoft Windows Installer" installed on your computer. This is already installed on Windows XP and Windows ME. But for earlier versions of Windows you need to download and install this update separately.
