Pretoria Trails

CAPITAL MTB TRAILS

The Buffelsdrift lapa and trail head is where the MTB action starts.

With the mountain bike industry growing at a phenomenal rate, there are trails and parks popping up right across Pretoria like never before! In their first Gauteng based contribution for Full Sus, **Armand du Toit** and **Jaco Ferreira** take a look at a few new and existing trails in and around Pretoria.

Voortrekker Monument

Recently more MTB and trail running friendly, the Voortrekker Monument is one of the new XCO MTB hot spots in Pretoria. With enough elevation to challenge even the strongest riders the Voortrekker Monument distinguishes itself from the rest of the parks in Pretoria. Not only does the VM challenges one's climbing ability but also your technical skills as this is the park where all the XCO Provincial Cup races are taking place for 2015. Well-marked rocky routes with some shady singletrack sections, jeep tracks and some tar/concrete pathways, this park also contains a variety of game and ample safe and secure parking.

SUS the Voortrekker Monument Trails
