About This Game

The villain Jacques has stolen the Treasures of the Ages so he can harness their mystical powers in his evil plan to rule the world. You must help Will Scout and Anna Graham on their quest to defeat Jacques and rescue the treasures. Only by following clues and escaping Jacques' sinister traps will you find his secret hidden base where he has taken the treasures so he can steal their power. Travel to 30 locations across the globe in your quest to rescue the Treasures of the Ages and defeat Jacques and his henchman Toadie!

- Travel to 30 locations across the globe!
- Dozens of challenging Hidden Object scenes!
- Escape Jacques' sinister traps!
- Recover the stolen treasures!
- Storyline filled with twists and turns!
- Thousands of unique items to find!

Title: Hide and Secret Treasure of the Ages

Genre: Adventure, Casual, Indie

Developer:

Anarchy Enterprises

Publisher:

Anarchy Enterprises

Release Date: 15 Mar, 2007

7ad7b8b382

English

Broken game. Does not proceed when I found all the items, stays on hidden object scene. Tried to quit to main menu and continue few times - item list disappeared and I was clicking blindly. When I found all the items 3-4 times game continued to next HO scene and same problems happened again. No point to mention outdated graphics etc.. The only reason I purchased this game is because 1. I had this game as a child on CD from a bargain bin and I loved it. 2. It was on sale.

Unfortunately the game hasn't aged well. It's repetitive and you have to find the same things each round and the rounds don't pertain to the storyline which makes no sense in the first place. Anyways, for nostalgia's sake, I missed it. For playability? I don't miss it.. Alright, I didn't finish this game, cause I really don't enjoy it. But I still think it's fair to write a review about it of why I didn't enjoy and didn't finish the game.

First of all. Before I bought the game I was really excited to play it. I'm a big fan of hidden object games and I thought this was going to be one like all the others. This wasn't the case though.

When I saw that the story was told in comic style I thought, Well that's a cool idea, never seen that before. The voice acting wasn't the best, but not bothersome. Then the first hidden object scene came. It was just a background with a lot of random items on it. The object that I had to find was real random and it didn't have anything to do with the story.

After I finished the hidden object puzzle a new part of the story popped up in comic style and was going further with the story part where it ended. After the story part was finished I had to do a new hidden object scene. This was almost the same as the one before. Random background with almost the same items I had to find.

This is how the game goes on and on. That's why I decided to quit the game and why I won't finish it. This is also why I won't recommend this game. If you really want to try the game. Try to get it in the sale. Full price it's totally not worth it in my eyes.

. the worst hidden object game I have ever played. just a bunch of easy, lazy and repetitive hidden objects scenes that have nothing to do with the story.

is it serious? I completed the game in 30 minutes. it is absolutely not worth the money.

it is so bad that you will feel cheated even if you get it for free.. the worst hidden object game I have ever played. just a bunch of easy, lazy and repetitive hidden objects scenes that have nothing to do with the story.

is it serious? I completed the game in 30 minutes. it is absolutely not worth the money.

it is so bad that you will feel cheated even if you get it for free.. Let's just say I wish I'd read the reviews before I bought it, even if I only paid 0,50€. If you are looking for a HOG masterpiece then you shouldn't get this one...

This is an OK Hidden object game...

What's wrong:

- OK story
- Stupid comics (Could be better)
- Random positioned hidden objects to search for, cut from some existing graphics
- Lacking of good taste

Release date for this game is 2007, so I will try to be somewhat forgiving. I recommend it, but not for the full price, since the game is so old. Wait until it is on sale, or included in a bundle.

The developers were obviously attempting to be silly, with the corny story line. I actually didn't mind the starving hero, ridiculous French villain, or the henchman who refers to himself in the third person.

What bummed me out was the hidden object scenes themselves. The scenes consist of random objects stuck all over backgrounds that have nothing to do with the story line. Looking for a diving flipper? Why yes, there it is, affixed to the ceiling in what looks like an Egyptian temple... Makes perfect sense! Unfortunately, such hidden object scenes are pretty typical of the genre ten years ago. We've come a long way since then, thank goodness!

Be glad that the game is relatively cheap (particularly when on sale), and it does go by quickly. Consider it a retro hidden object game.. Worst and laziest made HOG I've ever played. The objects are just the same items over and over on different backgrounds with little or no list variation. Waste of money at any price. I usually enjoy the Hide and Secret series but this is awful.. This was a rough one. I have played lots and lots of point and click find games. This one was bad.

The story was told by a poorly animated and voice acted strip of comics. And the segments in between where you had to find stuff had absolutely nothing to do with the story. The pictures of things you had to find were just clip art smashed on top of eachother. Sometimes you couldn't even find the item you were looking for because it had so many other photos piled on top of it.

For money, I can not recommend this game.. Let's just say I wish I'd read the reviews before I bought it, even if I only paid 0,50\ac. This game doesn't deserve the bad reviews. It's a hidden object game, as described, without any added mini-games or point & click features. If you like hidden object games, then this game is for you. There is a comic strip style storyline throughout, which can be skipped over if it's not your cup of tea.
