

[Sixaxis Driver For PC Free Download](#)

The screenshot shows the MotioninJoy Gamepad tool interface. At the top, there are navigation tabs: Home, Local, and Help. Below that is a menu bar with Profiles, Driver Manager, BluetoothPair, Language, Options, and About. The main area is titled "Driver manager" and contains a "Reload this page" button. A list of instructions is displayed, followed by a table of hardware information. The table has columns for Hardware Location, Hardware ID, and MotioninJoy status. The first row shows a device at Port_#0001.Hub_#0005 with Hardware ID USB\VID_054C&PID_0268&REV_0100, which is "Loaded Already". Below the table are buttons for "Load driver", "Roll back", "Refresh", "Install all", "Game Controller Panel", and "Device Manager". A large green "Download now" button is prominent. To the right, there is an advertisement for "Free IVR Software Info". A yellow banner reads "This may take a few seconds. Please wait a moment!". Below this, a log window shows the following text: "INFO:InstallDriver start...", "SUCCESS:Set Selected Device.", "SUCCESS:Get Device Install Params.", "SUCCESS:Set Device Install Params.", "SUCCESS:Building Driver Info List.", "SUCCESS:Call Class Installer.", "SUCCESS:Get MotioninJoy Driver.", "SUCCESS:Install MotioninJoy Driver start.....", "SUCCESS:Install MotioninJoy Driver Successfully.", and "INFO:Load driver for 'Port_#0001.Hub_#0005' completed."
