

[Portable Apps V1.1.rar](#)

The screenshot shows the Free Download Manager (FDM) application window. The title bar reads "Free Download Manager". The menu bar includes "File", "View", "Downloads", "Options", "Tools", and "Help". The toolbar contains various icons for adding, playing, pausing, stopping, and managing downloads. A tip bar at the top says: "Tip If you want FDM to download files one by one, set the maximum number of running downloads to 1 in Settings | Downloads | Network, or click here." Below the tip bar, there are tabs for "Downloads", "Flash video downloads", and "Torrents". The main area is a table with columns: "File name", "Size", "Downloaded", "Time r...", "Sections", "Speed", and "Comment". Two rows are visible, both with 100% completion: "FreeDownloadManagerPortak ..." (7162 KB) and "PortableApps.com_Platform_ ..." (3173 KB). On the left, a tree view shows "All downloads (2)", "Filters", and "History". At the bottom, a "Log" tab is active, showing a list of events with columns for "Time", "Date", and "Information". The status bar at the bottom indicates "Ready", "10.1 MB; 0 B", and "0 B/s; 0".

File name	Size	Downloaded	Time r...	Sections	Speed	Comment
FreeDownloadManagerPortak ...	7162 ...	100% [7162 KB]		0/6		
PortableApps.com_Platform_ ...	3173 ...	100% [3173 KB]		0/6
